- ACID RAIN
- BIRD DROPPINGS
- INSECTS
- HARD WATER SPOTS
- EXPOSURE TO THE SUN CAUSING FADING, CHALKING, LOSS OF GLOSS.

Q: What is Diamond Plate?

A: Diamond Plate is a nano ceramic polymer coating that reacts with your vehicle's clear coat finish to form a second layer and thicker coating for added protection. These highly cross-linked coatings are extremely weather resistant, provides UV protection, wear and acid rain resistance. These coatings are so durable they are used widely in the aerospace industry.

Q: How long does it last?

A: Three independent laboratory tests have proven that Diamond Plate lasts well beyond two years on your vehicle's surface.

Q: Is Diamond Plate like adding a new layer of clear coat?

A: Yes, Diamond Plate reacts to form another ceramic clear coat over your existing one.

Q: If I apply Diamond Plate to my vehicle, can I continue to wash my vehicle regularly?

A: Absolutely, and highly recommended. Diamond Plate has been shown to withstand over 100 consecutive passes through a commercial car wash tunnel.
